

You Are My Star

*Music by Thomas Siffling
Lyrics by Hendrik Achenbach*

1

Can you see the sun
in the silver sky
on the rooftops
as she is flying by

She'll be leaving soon
She's fleeing the moon
And I wonder
will I be alone in the gloom

I can't make her stay
She'll be on her way
But I know that you're not far
'cause you are my star

2

When I look at you
for a little while
I get dreamy
I even try a smile

How it hurt me so
when you had to go
I am weary
even when I stand in your glow

When you look at me
I'm sure you can see
how my life is quite bizarre
'cause you are my star

3

There's no greater love
than the one we had
But I lost you
the day it all turned bad

When you closed your eyes
and said your good-byes
I stopped hoping
stopped believing all of their lies

Now I'm all alone
Yes all on my own
I should go to where you are
'cause you are my star

4

Let me lose myself
in your starry light
I'll be fading
into an endless night

Where my heart can sleep
in spaces so deep
Let me go there
never to return from your keep

I'll be soaring high
at home in your sky
I will be right where you are
'cause you are my star
